## Galactic Pigs: A Prelude

They devised a plan to steal the king from atop his very throne. And soon, they struck! Without hint or warning, the pigs infiltrated the Royal Castle of the Stars and plucked the king from out of the midst of his subjects.

Where he went, no one knew, so they called upon:

The only group still active and loyal to the king, the Future Knights.

The royal Star Seekers to divine the location of the missing King Glitmore.
